

## Reds Try To Capture Soochow Bridges

### Meet Stiff Pockets Of Resistance

Shanghai, Thursday, May 26—(AP)—Shanghai's communist conquerors fought today for Soochow creek bridges covering the last Nationalist escape route from the city. They ran into stubborn holdout pockets.

A small Nationalist rear guard still held the bridges. The Roily creek separates the heart of the city from the northern district—and Woosung, the lone government escape port 10 miles north.

The sharp crack of rifles and the chatter of machine guns echoed around the U. S. consulate general which was now in the midst of this small battlefield. The small arms fire had kept up a night long tattoo.

Inch Toward Bridges  
The communists kept inching toward the bridges which span Soochow at intervals westward from the north end of the famous Bund. The Reds had made their way to Peking road, only one block from the bridges where it runs into the Bund. They had moved up under the cover of darkness.

But the nationalists, who gave up the broad Yangtze almost without a struggle, still held the sludgy Soochow—a stream a flycatcher could span.

This little band of nationalists, aided by snipers in nearby buildings, was making a determined delayed action to cover the northward retreat of the government garrison.

All through the first night of communist rule over the world's fourth largest city, the Reds' big guns had pounded Woosung and the nationalist escape routes down the Whangpoo river to the sea.

North Alive With Flames  
The whole northern horizon was alive with flame. The beaten nationalists apparently were blowing up fuel, bomb and ammunition dumps as they pulled out.

Destruction of a fuel dump at Kiangwan airport, midway between Shanghai and Woosung, made it clear the nationalists had no intention of making any last stand. All they were doing was trying to delay the Red advance long enough to evacuate.

It was a night far stormier than any of the three-weeks siege. The siege was broken abruptly early today when the communists marched unopposed into the heart of Shanghai.

Canton, the refugee capital in South China was deep in gloom. A dispatch from there said officials believe Canton will be the next objective. The cabinet met in special session to discuss the situation.

All communications were cut off to Woosung, 10 miles north of Shanghai. It was impossible to tell if the nationalists were making good on this oriental "Dunkirk."

## Proposes Probe Into U.S. Military Plane Purchases

Washington, May 25—(AP)—With a pointed allusion to Defense Secretary Johnson's former business affiliation with an aircraft company, Rep. Van Zandt (R-Pa.) today proposed a congressional investigation of military plane purchases.

He introduced a resolution calling for appointment of a special five-member house committee to look into the nature and circumstances of the purchases and "prior or present" connections of any military officials with any company which has sold aircraft to the government.

Secretary Johnson was formerly a director of Consolidated Vultee Aircraft Corp., which makes the giant B-36 bombers.

Van Zandt issued a statement saying: "A great deal of information has come to my attention within recent weeks regarding the unusually large purchases of aircraft from Consolidated Vultee Aircraft Corp., controlled by Floyd Odlum, a heavy contributor to the Democratic campaign, and a company of which days after his nomination as Secretary of Defense by the President, a director and Washington counsel."

SHIP CATCHES FIRE  
Bolboa, C. Z., May 25—(AP)—A radio message received here from the 8297-ton Grace line freighter Santa Rita reported a fire had broken out today in its hold and the vessel was returning to port with all possible speed. The ship's message added that the fire was under control.

## Strikers Reject Peace Bids From Red Railway

### Meet Stiff Pockets Of Resistance

Berlin, May 25—(AP)—Striking west Berlin railway men rejected tonight a peace bid from the Russian-supervised German railway system which met only one of their three demands, payment of wages in west marks.

The strikers announced they would continue the five-day-old strike, in which two Germans have been killed and hundreds injured.

The British military government charged tonight the Russians are "seriously dislocating" rail traffic between Berlin and western Germany and called on Soviet authorities to accede to the strikers' demands.

In the 24-hour period up to 6 p. m. (10 a. m. Central Standard time), only two allied trains arrived in the western sectors, the British said. These were a British passenger train and a U. S. freight train. Two U. S. military trains bound for Berlin were halted more than nine hours at suburban Potsdam, headquarters of the Soviet occupation army. Buses sent 10 miles from the Berlin American sector brought in more than 100 passengers. American officials ordered the trains to return to west Germany.

Heinrich Rau, chairman of the Soviet zone German Economic commission, said 2,370 loaded west German freight cars were blockaded.

## Committee Okays 'Cooling Off' Rule In Divorce Cases

Springfield, Ill., May 25—(AP)—The Illinois House Judiciary Committee today approved a bill giving the State Supreme Court power to adopt a suggested "cooling off" rule in divorce actions.

The suggested rule provides for a 60-day waiting period before a divorce complaint is filed to attempt to effect reconciliations. The Supreme Court last week declined to adopt the rule, saying it didn't believe it had the authority to adopt it.

Circuit Judge Julius Miner of Cook county told the committee that Chief Justice William Fulton of the Supreme Court favored the legislation.

## Finds Poisonous Seeds In US Beans Sent To Germany

Hamburg, Germany, May 25—(AP)—Dr. Otto Nieser of the State Botanical institute said today large quantities of poisonous datura seeds have been found in a 100,000-ton cargo of soy beans imported from the United States.

The poisonous seeds were discovered by German officials by chance, he said. None of the cargo has reached consumers.

Dr. Nieser said about 33 of the seeds could kill a person. The seeds are known in the United States as Jamstown (Jimson) weed, thorn apple or devil apple.

He said as many as 100 poisonous seeds had been found in a pound of the imported soy and expressed surprise so much of the weed could grow among the soy beans. Part of the shipment that was processed has been destroyed. The rest will be sifted to remove the datura. Germans estimated a five per cent loss.

## Testifies Rutledge Hounded Hattman

Cedar Rapids, Ia., May 25—(AP)—The late Byron C. Hattman's landlady today gave testimony in support of the state's contention that Dr. Robert C. Rutledge, Jr., hounded the man he is accused of slaying.

This testimony came as the state neared the end of its rebuttal and announced it would rest its case tomorrow. The jury was expected to begin deliberations probably Friday night after defense rebuttal testimony, final summations, and instructions from District Judge J. E. Heiserman. This is the fourth week of the murder trial.

Mrs. Hattie Steink, the landlady, said a man identified himself as Rutledge called her St. Louis rooming house "several times" last August to talk to Hattman.

She said that on the last of the calls she heard Hattman say in effect: "Don't call our house any more. If you want any information call my lawyer."

Hattman's attorney told the jury Rutledge called him August 20. He said "Rutledge" told him Hattman had been forcibly intimate with his wife July 31 and asked \$250 for her operation for her. He said "Rutledge" withdrew the request a day later.

## CIO Head Bridges Indicted By Grand Jury For Perjury

San Francisco, May 25—(AP)—Harry Bridges, head of CIO Longshoremen, was indicted by the federal grand jury today.

The indictment accused him of conspiracy to obstruct and defeat the naturalization laws, and of perjury.

Two other men were indicted with the left-wing longshore leader. They were Henry Schmidt and J. R. Robertson, both officials of the ILWU. Bail was set at \$5,000 each.

The three were charged in one count with conspiracy to defraud the United States by obstructing and defeating the proper administration of the naturalization laws, between June and October, 1945.

A second count charged Bridges with perjury. It accused him, on Sept. 17, 1945, at his naturalization hearing, of swearing falsely that he was not a member of the communist party.

A third count charged Schmidt and Robertson with perjury, alleging that they, as witnesses in the hearing, swore falsely, knowing it to be false, that Bridges was not a member of the communist party.

Schmidt is a member of the Longshore Coast Labor Relations committee. Robertson is first vice president of the ILWU.

## Rita Plans To Go Back Into Movies After Wedding Aly

Cannes, France, May 25—(AP)—Rita Hayworth will acknowledge Prince Aly Kahn as household boss in their marriage Friday, but has no intention of giving up her movie career.

The actress, agent, John Hyde, announced today both will head back to Hollywood before the year is out, perhaps by October.

The lure in Rita's case is a resumption of \$5,000 a week movie work, said Hyde, and the lure in Aly's case is the west coast horse tracks. Aly likes California especially in the pony season, Hyde remarked, and he'll know what to do with his time.

"I found Rita keyed up and a little on the tense side, but very anxious to resume her artistic career," Hyde said. "Moreover, Prince Aly approves completely."

That's a factor because the French Marriage Act which will unite Rita and Aly in the Vallauris town hall provides: "The husband is the head of the family. The choice of residence of the family belongs to the husband. The wife is obliged to live with him and he is obliged to receive her."

## Senate Passes Bill Giving State Aid To TB Sanatoria

Springfield, Ill., May 25—(AP)—A \$6,000,000 state aid program for tuberculosis sanatoria passed the Illinois Senate today and advanced to the House.

The plan, backed by Governor Stevenson, calls for \$5,000,000 in grants for patient care in tax-supported municipal or county sanatoria. Aid would be based on financial need and limited to \$3 a day per patient.

The other \$1,000,000 is earmarked for sanitarium repairs and improvements.

Other legislative developments included: 1. The Senate killed a bill authorizing the governor to proclaim next year whether public offices and institutions must operate on daylight or standard time. Another bill seeking daylight time repeal is pending in the House.

2. A republican Senate economy drive which has slashed \$463,000 from the democratic state budget for new cars, showed signs of slowing up.

3. Legislation to improve chances for voters' adoption of the Gateway plan for amending the state constitution won Senate approval and went to the House.

## Rabbits Disrupt Army Air Field

Indianapolis, May 25—(AP)—A rabbit family sent the Tenth Air Force into temporary retreat on Shoer Field today.

In the midst of plane traffic on a taxi strip, the nest of papa and mama rabbit and their offspring was discovered by Staff Sgt. Robert Brisco, a flight line mechanic of 908 Benjamin ave., Norfolk, Neb.

It didn't look good for the rabbits until Sgt. Brisco got permission to post a red flag. Now the planes that come to the Tenth's headquarters at Fort Benjamin Harrison take a slight detour.

BONUS CHECKS  
Chicago, May 25—(AP)—Nine hundred twenty Illinois soldier bonus checks worth a total of \$245,053.06 were mailed yesterday. To date the state has paid out \$310,780,737.37 among 421,999 veterans from downstate and \$34,919 from Cook county, by the State Health Department.

## West Will Not Back Down On New German Constitution

### Lilienthal Blasts Congress For Charges Against AEC Actions

Washington, May 25—(AP)—Chairman David E. Lilienthal of the Atomic Energy Commission flared back at congressional criticism today and demanded a quick verdict on what he called charges that the atomic program is "virtually a failure."

Chairman McMahon (D-Conn.) of the Senate-House atomic energy committee promptly announced that public hearings into the charges will start tomorrow (8 a.m. C.S.T.) virtually a failure is a matter urgently necessary.

"The charges by Senator Hickenlooper of 'incredible mismanagement,' 'misplaced emphasis' and 'maladministration' involve nothing less than the security of this nation and the peace of the world."

But Lilienthal hastened to say that in his own opinion, far from being a failure, the record of atomic development is "a proud one."

Senator Hickenlooper (R-Iowa), former chairman of the joint atomic committee, demanded last week that President Truman fire Lilienthal on grounds of "gross" mismanagement. Senator Wherry (R-Neb.) has also suggested that Lilienthal resign.

Then today democratic Chairman McMahon said: "I am certainly not going to join in indicting him before getting all the facts in the case," Kefauver said.

"Lilienthal is in a tremendously big operation, pioneering in new fields, and the opportunity for mistakes is large. As a man I have complete confidence in him."

## Handcuffed Man Doesn't Get Far In Brief Escape

Chicago, May 25—(AP)—A handcuffed prisoner broke away from two officers in the downtown district today but was recaptured after a brief chase. Two shots were fired.

August De Francisco, 22, was being taken from the county court building to the house of correction on the west side. A few moments before, he had been sentenced to the Illinois State penitentiary for from one to two years for beating his two-year-old son.

His guards, John Curran, 45, and William Devitt, 51, stopped at a parking lot at Randolph and Wells streets to pick up their car.

As Devitt was paying the parking fee, De Francisco shoved him aside and ran. Two shots fired by Devitt failed to stop the man.

He darted down Randolph, into an alley off Franklin street a block away, and vanished.

A short time later, Policeman Paul Henriksen, 34, saw De Francisco crouching behind a car in a vacant lot two and a half blocks from where he escaped.

## Shell Fragment Is Police's Only Clue In Shelton Ambush

Fairfield, Ill., May 25—(AP)—A shell from an automatic pistol was the single clue in the possession of authorities today as they sought to solve the shooting of big Earl Shelton.

The 53-year-old gangster, sole survivor of three brothers who ruled one of the nation's toughest gangs 20 years ago, was shot in the back last night as he played cards in a second floor private club.

At Deacones hospital in Evansville, Ind., where the wounded gangster was taken after emergency treatment, physicians said he would survive. They said, however, that if the angle of the bullet had varied even slightly Shelton would have died instantly.

Winning from pain, Shelton, who operates a 900 acre farm near Fairfield, told a reporter for the St. Louis Post-Dispatch: "They got me in the back, just like they got my brothers. They didn't give me a chance."

Asked if he knew who shot him, Shelton said: "I don't know what's been going on around Fairfield. I've been busy around my farm. I'm in bad shape, but the law won't do anything about it. They probably could get some fingerprints. I hear the attorney general called up, and maybe the state will do something."

## O'Dwyer Will Not Seek Reelection

New York, May 25—(AP)—Mayor William O'Dwyer said today he would not be a candidate for reelection.

He became the 100th mayor of the nation's largest city on Jan. 1, 1946. He did not give any reason for his withdrawal announcement.

O'Dwyer, Irish-born former New York policeman, is 58.

Although he had not gone on record before, it generally had been assumed he would announce his candidacy at the right moment. Today's statement came as a surprise.

O'Dwyer gave no indication of his future plans.

## Tells Russia Not To Expect Reparations

Paris, May 25—(AP)—The United States laid down tonight the principle tonight that Russia could expect no more reparations in any merger of east and west Germany.

Britain said she would not agree to any proposal which took from the Germans the powers of self-government conferred by the three western powers.

Soviet Foreign Minister Andrei Vishinsky stood firm on his proposals to unify Germany by reviving the four-power allied control council, and said suggestions to extend the Bonn Constitution to the eastern zone was a western attempt to take all Germany.

These were the main developments at the third session of the Council of Foreign Ministers, as reported by official western press observers.

Although it was yet early in the conference, the positions taken by the four powers appeared to be hardening along the lines which deadlocked all their previous efforts to reach a German settlement.

Vishinsky yesterday proposed reviving the allied control council in which, he made clear today, Russia's veto power would be kept intact.

The proposals would give her a voice in control of the Ruhr, considered vital to the European Recovery Program.

Tonight U. E. Secretary of State Dean Acheson, British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman laid down what the basic agreements must be before there is any agreement on the machinery for governing Germany.

Acheson devoted his answer largely to the economic side.

Light Of East German Economics  
He said there was no possibility of achieving unity of Germany until there was more light on the economic conditions of east Germany.

"What has been done in the Soviet zone," he asked, "information has been called for that was never provided."

He said the western powers, especially the United States, had poured millions of dollars into Germany to avert starvation and aid economic recovery and that west Germany still had a deficit economy.

"This means there is no surplus in German economy as far as the west is concerned," he said. There is no surplus for reparations. There is nothing that can be skimmed off without destroying much that has to be accomplished."

He then reviewed reports that the Russians had seized ownership of vast east German factory combines and put them to producing for Russia. He said some industries had been taken over 100 per cent by the Russians.

He declared the west must see an accurate record of what these seizures had done to the German economy in the event of any merger of east and west Germany.

## House Group Ok's Bill Giving Cities More Taxing Power

Springfield, Ill., May 25—(AP)—A bill to help tax-poor Illinois cities by giving them unlimited power to raise money through licensing of all occupations within a city won approval of the democratic-controlled House municipalities committee today.

But the republican-controlled municipalities committee in the Senate delayed action on it. A leader of the republican majority in the Senate told a reporter the bill has little or no chance of passage there.

The controversial measure, defeated two years ago, is backed by democratic Mayor Kennelly of Chicago and spokesmen for more than 200 large downstate cities. It is opposed strongly by business, industrial and taxpayer groups.

A 17-14 vote in the House committee, with two republicans joining 15 democrats, prevented sending the bill to a subcommittee, an action which would virtually kill it. All 14 dissenters were republicans voting to sidetrack it. The committee then voted 17-11 to send the bill before the entire House.

MEANTIME, FBI intervention to solve the attempted slaying of Victor Reuther was asked by CIO president Philip Murray. Walter was a victim of a would-be assassin under similar circumstances a year ago.

Murray asked Attorney General Tom Clark to act. Following up his request, CIO general counsel Arthur Goldberg and Joseph Rauh, a UAW attorney, visited Clark and reported afterwards the Attorney General took the matter "under consideration."

REVIVE BILL TO GET DOGS FOR RESEARCH  
Springfield, Ill., May 25—(AP)—Legislation to make more dogs and cats available for medical research was revived today by the Illinois House Public Aid Committee.

It voted 15 to 6 to recommend passage of the bill. Its action reversed a previous vote by the committee rejecting the bill.

The measure provides that medical and scientific institutions could acquire dogs and cats for research from public pounds. Institutions applying for animals would be licensed.

## A REBUFF TO THE SCOUTING PROGRAM

The negative vote of four aldermen in the city council last Monday night when an ordinance authorizing the leasing of a tract of ground on Lake Jacksonville to the Boy Scouts was presented came as a severe and unexpected shock to all citizens who have been interested in the Scouting movement.

The Jacksonville scouts have been occupying this particular tract and had planned on developing it into a fine permanent camp similar to Camp Illinek on the shores of Lake Springfield.

The aldermen who voted against granting the lease to the Scouts made it clear that they are not opposed to the Scouting organization. They based their objections upon the swimming privileges which the scouts sought, asserting that there was a sanitary problem involved and that there would be no way to prevent unsupervised swimming in the lake.

It is to be hoped that these aldermen will conscientiously re-examine and reconsider their decision. If they will but study the matter, we believe they will find the following to be true:

1. Swimming is an essential part of Scouting.
  2. Scouts are taught to swim and learn the rules of water safety under a carefully supervised program.
  3. Lake Jacksonville is not the city's immediate water supply but only an auxiliary watershed.
  4. Swimming was formerly permitted by the city in Lake Mauvaisterre, except in the north one-third of that lake nearest the dam and water plant, and the State Department of Public Health then said that there was absolutely no threat to water sanitation.
  5. Medical experts and health authorities positively state that swimming in Lake Jacksonville could not cause any danger to the city's water supply.
  6. The present lake ordinance of the city governing the leasing of land around Lake Jacksonville permits lessees to swim in front of their leased premises.
  7. The city council granted to the 4-H clubs within the past year a long term lease of an area on Lake Jacksonville for camp purposes with the privilege of swimming.
  8. Supervised swimming, with lifeguards present, is quite different from unsupervised swimming.
  9. Other cities, such as Springfield and Decatur, permit supervised swimming in their water reservoirs.
- In the past many Jacksonville boys have gone to these camps at Springfield and Decatur. Are they to be denied the right to their own camp here?

## Why Great Men Kill Themselves

By Hal Boyle  
New York, May 24.—(AP)—More people take their own lives in a cold war than a hot war.

This truth of history is emphasized by the death of the nation's first secretary of defense—James Forrestal.

He is the third major statesman in the post-war world to kill himself. The others were John G. Winant, former ambassador to Britain, and Jan Masaryk of Czechoslovakia.

Forrestal... Winant... Masaryk... Why did they do it?

It is always a ripple on the commonplace when men in high places destroy themselves. Why did they kill themselves?

All were well-to-do, respected, and seemingly had much to live for. They were three men with three different philosophies of life. They all traveled different roads, but they all ended up at the same blank wall.

**All Turned To Suicide**  
Forrestal was an investment banker and a realist. Masaryk was a cultured and cosmopolitan sophisticated and the idealist all turned to suicide as the only way out of their problems.

In the cases of Winant and Forrestal their deaths were officially blamed on overwork. Masaryk is thought to have killed himself when he realized he and his country were prisoners of a foreign power. And some believe, of course, that Masaryk didn't go out his castle window under his own power. They think he was pushed.

Traditionally, statesmen and generals commit suicide for only one reason—to avoid disgrace or to escape punishment. This was as true in ancient Rome as it is in modern Germany and Japan.

**None Was A Disgrace**  
But Forrestal, Masaryk and Winant chose suicide in peacetime, after surviving strains of war. None was a disgrace.

It is an odd fact that the tension of everyday living is greater in peace than it is in war. Danger excites, tension destroys.

In a world at peace no one is trying to take your life. In wartime the enemy is. And the more he seeks your life the more you want to keep it—if only through pure stubbornness.

The mere fact he is after it makes you put a higher value on it.

Another reason fewer people commit suicide in wartime is that life has a common aim, and people have more of a we-are-all-together feeling. They are also more unselfish.

## Sportsman's Club At Glasgow Plans Fish Fry May 29

Glasgow—The annual Glasgow Sportsman's Club fish fry for members and their families will be held at the Club's lake south of Glasgow on Sunday, May 29th, at 11:30 a.m.

Free fish will be served, with those attending requested to bring cake, pie, salads and table service.

Several from here attended the baccalaureate services at the Winchester Community High School Sunday evening, May 22nd, at 8 o'clock, for the graduating class of 1949.

Members of this year's class from the Glasgow community are Miss Joyce Brinker, daughter of Mr. and Mrs. Edward Brinker, Miss Janet Hester, daughter of Mr. and Mrs. Albert Hester, Miss Claudine Savage, daughter of Mr. and Mrs. Clarence Savage, and Royce Savage, son of Mr. and Mrs. Leo Savage.

The Zion's Neck Pioneers club met with Mrs. Orval Evans Friday afternoon, May 20. High score went to Mrs. Raymond Northrop, low to Mrs. Lloyd Christison, and floating prize to Mrs. Leonard Benton. Delicious refreshments were served at the close of play.

Next meeting of the Club will be with Mrs. Raymond Northrop, June 3.

**New Cemetery Sexton**  
Kirt Lettze has been tentatively employed as sexton of the Glasgow cemetery, and has now gotten the grass, which had become unusually tall, back down to normal height, causing the cemetery to again assume its attractive and well kept appearance.

Mr. Lettze was assisted several days last week by Gale McEvers, who used a hand power sickle on a portion of the extra tall grass on the east side of the old section of the cemetery.

From where I sit... by Joe Marsh

**Two Heads Are Better Than One (Or None)**

I get a kick out of buying stuff down at the hardware store. And I always ask for a little advice from one of the two brothers who run it, because I know beforehand exactly what the answer will be.

Like when I needed a new garden hose. "Henry," I says, "how about this new plastic hose—is it really as good as rubber?" "Well," he says, "I'm inclined to think it is—but you'd better ask Tom."

I found Tom in back and asks him the same question. "Well," says Tom, "in my opinion it is—

but you'd better ask Henry." "I already have," I says, "and when you two cautious old codgers agree I'd bet my life on the decision."

From where I sit, your own opinion is worth a lot—but so's the other fellow's. That's why I keep saying, over and over, let's be tolerant of the other person's point of view—whether it's on politics or farming—or whether you like milk shakes and he prefers a temperate glass of beer.

## ISLAND OF ESCAPE

By Hugh Lawrence Nelson  
 COPYRIGHT BY HUGH LAWRENCE NELSON DISTRIBUTED BY MCA SERVICE, INC.

THE STORY: See Cosgrove is not satisfied that the death of Lily Warren on Henry George Harding's Spear Island was suicide, but she finds little to point out any of the other seven inhabitants of the island as the murderer. Then, when Bea is watching Harding's sheep she is visited by Miguel Oak, the captain of the Simplicio, the fishing boat which brought Bea, Lily, Agnes Fitch and Mabel Jones to the place. Oak tells Bea that his brother was one of four workmen killed by accident on the island when Harding was using it up. Oak also admits playing little "jokes" on Harding to torment him. The conversation is interrupted when someone approaches from the house.

XXI  
 "THE boss wants to see you right away," Bascombe said. He sat down beside Bea and stared gloomily at the sheep. "Silly things," he commented. "They remind me of people."  
 "What does Harding want?"  
 "Harding? Who said anything about Harding? I was talking about my boss, Mr. Fred Sillwell."  
 "What's the matter with you today?"

Bascombe grinned sourly. "Nothing like a nice suicide to cheer people up. Not," he added hastily, "that I have any personal feeling about her death."  
 "Nothing personal? But there's something personal bothering you. I have it. Your little deal with Sillwell about the whiskey has backfired?"  
 George glanced at her, averted his eyes quickly. "No. That's the one bright spot. Little George Bascombe at his best. No, Fred's still buying. What he gets from Harding only makes him thirstier."  
 "He's young for a confirmed alcoholic."

"Fred never was young. Fred is impulsive when he's kept waiting. It may not matter to you but it does to me."

Bea got up, started the sheep down the trail. "I don't see why you're so afraid of Sillwell."  
 "No, you don't do you?" George grunted. "Say, have you missed any sheep lately?"

"I've never counted them Why?"  
 George kicked a pebble in the trail. "Any wild animals on the island? Big enough to kill sheep I mean."

"The cave! You've heard the gasping in the cave."  
 "Yeah I heard it." He did not sound much impressed. "I thought the sound effects would help. Monster guards gold—and my whiskey too."

Bea kept her voice casual. "How did you know about the supposed treasure of the cave?"  
 "Lilly told me. She had some idea of hunting for it."

MISS COSGROVE remembered the group of women at the tower room door when she had been reading aloud from the History of Spear Island. "She tell anyone else?"

"I don't know," George hesitated, recovered quickly. "The next day the whiskey was still there."  
 She knew what he had started to say. Lilly hadn't had much time to tell anyone else.

"You remember the day we hid the whiskey?" George asked abruptly. "Did you smell anything funny then?"  
 "No. Why?"  
 "The cave smells now. Maybe it's because of the blood."

Bea realized he had reached the true basis for his unhappy frame of mind. "What blood?"  
 "Oh there was some sheep wool there too. And blood splattered on the whiskey cases."

"Sheep blood? Or Lilly Warren's?"  
 George Bascombe pushed fingers under the brim of his borrowed hat, tilted it back on his head.

"How could she have killed herself there and been found in the cave?"  
 "There was whiskey in the cave," Bea reminded him.

"And I suppose you mean I could have found her and moved her to save my cache. Don't forget the alibis."

"What alibis? I want to see the cave, George."

"Go ahead. I cleaned up though. I'm a tidy housekeeper. You won't find anything."

"Then why tell me about it?"  
 "I thought you'd know how many sheep there are."

"I'll find out," Bea promised. She counted silently. "There're 17 now."

"Can't we hurry these sheep a little?"  
 "Why not tell them Fred Sillwell is waiting?" Bea asked drily.

"That ought to scare them into running."

FRED SILLWELL waited for them at the door of the small building which served as quarters for the two men.  
 "So you finally got here!" He glared at Bea. "You come on in," he snapped. "Beat it, George."

Bascombe grinned meaningfully at Bea Cosgrove as she went inside. The single room, in spite of Nona McGuire's efforts, was dirty. The two unmade cots showed tousled covers stained with streaks of grease and dust. Everywhere was a litter of salvage from the Gullwing, for the most part cameras and photographic equipment to be overhauled.

Fred Sillwell dug around under one of the cots and produced a half-filled bottle. "Sit down," he suggested. "I'm glad you're not a drinker. The stuff's too scarce these days."

Bea sat down on one cot. Sillwell looked at her a moment, smiled, sat down beside her. "You're too good looking to be on this dinky island."

Miss Cosgrove shrugged off his arm with a mechanical gesture. "You don't have to go into that routine."

"All right," Fred said. "But you never can tell until you try. Some women do."

"I'm sure you're very hot stuff," Bea said. She got up.

"Hold it," Sillwell ordered. "We'll leave out that angle. There's something you can do for me though."

## Demonstration Of New Fire Truck Thursday At 5:30

A public demonstration of Jacksonville's new 100-foot aerial ladder fire engine has been scheduled for

5:30 o'clock Thursday afternoon on the west side of the square, in connection with the district training school for firemen which will be held in this city Thursday and Friday.

The big ladder will be elevated and water will be thrown over the trees in Central park with the use of a water tower which will be brought here by the Springfield fire department.

The demonstration is scheduled for 5:30 o'clock to permit store employees to witness it, after closing hours.

Members of the city council, several fire chiefs from various cities and visiting firemen will see the new equipment in action. Representatives of the American LaFrance Foamite corporation, builders of the aerial truck, will be in attendance.

Firemen from four counties will attend the training school at the fire department, in charge of deputy state fire marshals. Volunteer departments in this area are especially urged to send members to the training school.

## Boys Urged To Start Building Derby Racers

It's not too early for Soap Box Derby contestants to get started on the construction of the racer which they will enter in the Jacksonville event on July 17 and perhaps take to Akron for the national finals in August.

The first step of course is registration. This may be done, and the car down the track and win over all the other boys. He must have a high regard for the finest sort of keen competition and be a "good sport" in all things to enable him to accept either victory or defeat.

The Derby has attained its present high standing in popularity because the eyes of all—sponsors and contestants alike—have been alert to the finest principles of good, clean competition.

There is an old saying that the more you put into an effort, the more you get out of it.

So, boys, put all you have into building your racing car and driving a clean race, observing always the rules and the spirit of good sportsmanship, and you will come out of your Derby competition a finer boy, richer for a great experience in true Americanism.

**20 Boys Already Entered**  
Twenty boys are now entered in the race. Among the more recent entries are Richard Allen Brogdon, car No. 12, sponsored by Firestone stores; Jerry Omundson, car No. 17; Richard Lewis, car No. 18; James A. Turner, car No. 19, sponsored by J.S.P. Transportation Co.; and Gene Pierson, car No. 20.

Nothing short of the top in all these three fields will enable a boy to attain the Derby crown.

Thus, the Derby champion must have a degree of manual dexterity to enable him to build a fine racing car. He must have a keen eye and good judgment so that he may guide that car down the track and win over all the other boys. He must have a high regard for the finest sort of keen competition and be a "good sport" in all things to enable him to accept either victory or defeat.

The Derby has attained its present high standing in popularity because the eyes of all—sponsors and contestants alike—have been alert to the finest principles of good, clean competition.

## Byrne Pitches, Bats Yanks To 6-2 Win Over Detroit

New York, May 25—(AP)—Tommy Byrne was the whole works today as he pitched and batted the league-leading New York Yankees to a 6-2 triumph over Hal Newhouse and the Detroit Tigers.

The 29-year-old left-hander hurled a five-hitter over the slumping Blueboys and struck out 12. He also collected two of the Yankees' 15 hits, both of them doubles, and drove in four runs.

It was Byrne's third straight win, without a loss this season.

Newhouse, in going down to his fourth loss against four victories, lasted six innings. He gave up 12 hits and all the runs.

Besides Byrne, First Baseman Jackie Phillips cracked two doubles and a single, and Hank Bauer hammered a home run and two one-baggers.

# SIX "BOBS" BOW OUT AT PITTSFIELD

If Coach Glenn Smith is bemoaning his plight concerning his Pittsfield gridiron warrior's chances for a repeat performance in coping the Illinois Valley football tie next fall here's why. There are six seniors named "Bob" graduating from the Pike county school this spring whose going will cut his pennant-winning eleven in more than half.

All half-dozen of these lads, have played a major role in compiling an outstanding football record for coach Smith since he took over the tutoring duties at Pittsfield in 1944. His grid teams have lost only two games, one to Winchester in '44 and the other to Roodhouse in '47, since he started teaching the sport in the Pike county seat town.

The boys, as they are pictured from left to right are: top row—Bob Kattelman, Bob Neibur, Bob Hayden. Bottom row—Bob Sidwell, Bob Voshall, and Bob Dell. Two of the youngsters, Sidwell and Voshall will be doing their stuff at Illinois College next fall. Dell and Neibur plan to attend Indiana's Wabash College. Kattelman, who has been named on the Valley all-conference team two years running and was given honorable mention by the Chicago Daily News for his performance in 1948, will not further his education until he can rid himself of a "football knee" hex.

Besides the "Bobs" who'll bob his '49 football chances, Smith will see 9 other lettermen receive their diplomas come graduation night. However, he'll hang on to the nucleus of a strong eleven in Captain elect Dick Zimmerman and end; Don Beard, tackle and Peebles, McCarty, Niebert, Ferguson and O. Chaplin.

## Athletics Keep 2nd Place; Defeat White Sox 6 To 4

Philadelphia, May 25 —(AP)—The Philadelphia Athletics protected their hold on second place in the American league tonight, defeating the Chicago White Sox 6-4 on the strength of a five-run fourth-inning attack. A double play halted a ninth inning rally by the Sox.

Eddie Joost pulled relief pitcher Alex Kellner out of a tight spot when he turned Luke Appling's grounder into a twin-killing with the tying runs on base and one out to double the play of the season.

Dick Fowler, who started for Philadelphia, was forced out of action after five innings when his "bursts" acted up again but received credit for the victory.

## WHERE THEY PLAY

Philadelphia's other run came across in the third on Eddie Joost's single, a passed ball and Ferris Fain's hit. Chicago scored three times off Fowler in the fourth on three hits and two walks and once off Kellner in the sixth.

## Dodgers Defeat Pirates 8 To 6

Pittsburgh, May 25 —(AP)—Brooklyn's surging Dodgers completed a highly successful invasion of the west today by whipping the Pittsburgh Pirates, 8-6.

Five relief hurling by rookie Jack Banta and a 13-hit attack, led again by Jackie Robinson, brought the Dodgers their fourth victory in their last five games and seven out of nine for the western tour.

Banta, in chalking up his first big league triumph, relieved Rex Barney in the third and gave up four hits and two runs the rest of the way.

Robinson, continuing his hitting rampage, clubbed a two-run homer and a single, and got on base four times. It was his sixth homer of the year and ran his league-leading runs batted in total to 34.

## ADVERTISE—IT PAYS

## Charm of Old France in Quebec's Citadel

Quebec, P.Q., May 25 —(AP)—The softness of age and the speech and customs of a day long past lend Quebec City and the green countryside a most distinctive atmosphere unfamiliar to this New World. The quaint old farmhouse and city dwellings, the grey stone warehouses, the narrow, twisting streets climbing Quebec's famous cliffside, provide a backdrop for a charming, gracious living people slow in speech and leisurely in their tempo of life.

Quebec folk are the descendants of early Normandy and Brittany pioneer settlers of the 16th and 17th centuries. Their language and customs have survived the coming of the English and the advent of all the wonders of this scientific 20th century. Quebec changes only outwardly as if paying only lip service to the marvels of this age. There are buses and neon signs in the old city, but only a few miles in the country and still within sight of Quebec's old ramparts with their frowning cannon, the farm houses are squat and square in the style of three centuries ago, solidly built of hewn logs or field stone and plaster. Plooding oxen draw the ploughs and the haycarts in the fields, the spinning wheel and the handloom, producing the homespun for the family clothing and the bread is baked in the old French outside oven in the farmyard.

The atmosphere of Old France pervades too, the fashionable resort area at Lac Beauport, nine miles north of Quebec. The comfortable Manoir Saint-Castin perpetuates the memory of an early Quebec garrison officer, the Baron de Saint-Castin, a dashing young explorer and army engineer. Decor of the Manoir is authentic early Norman, and the quiet charm of ancient French marks the entire colony of vacationists on the shores of Lake Beauport.

# Roodhouse Coach Marks Winning Decade

Portly Mason "Humpty" Campbell has established a 10-year coaching record at Roodhouse high school that any coach in the state would be proud to own. During his tenure at the Illinois Valley conference-member school, Humpty has lost only 7 football games while tying a pair and winning 58.

On the hardwood Campbell has fared even better. He gained statewide recognition with his Railroader quintet in 1939, winning the Quincy sectional tourney and guiding his team into the "sweet sixteen" meet at Champaign.

Humpty's cagers won the Winchester high school 16-team basketball classic in 1942 and repeated the performance in 1948. The stocky coach, a product of Roodhouse high school himself, has led his basketballers to county tournament crowns five times since he took over the helm.

Coach Campbell has seen two of his thinned lineups win Ivy honors. His cindermen of 1946 and 1947 out-raced all other competition in the eight-team loop. Roodhouse ranks sixth in school population among the octet.

1938 and 1939 track teams won district titles. Hal Wemberly, present track coach at Jacksonville high school, represented Humpty's thimble in the state run-offs in 1939, gaining a tie for fifth place in the 100 yard dash.

Add up all these wins, put 'em in a basket, shake well and they'll come out spelling "Humpty Campbell—Home Town Boy Makes Good, At Home."

## Brownies Wallop Red Sox 8 To 4

Boston, May 25 —(AP)—The St. Louis Browns supported effective pitching by Cliff Fanning and Tom Ferrick with 13 hits to snap a Boston Red Sox four-game winning streak today with an 8-4 victory.

Fanning had a two-hitter going until the sixth, when the Sox scored their first tally on a walk to Ted Williams and singles by Junior Stephens and Billy Goodman.

Thereupon Ferrick came in and was immediately greeted by Al Zarilla's homer into the right field stands which scored Stephens and Goodman. But that was the only hit made against Ferrick during his three and two thirds innings on the mound.

Jack Graham homered for the Browns.

The Illinois School for the Blind will mark its centennial with a special observance to be held at the school on Wednesday and Thursday, June 1 and 2.

The highlight of the 100 year celebration will be a pageant depicting the history of the institution, to be presented by the students on an outdoor stage erected on the school grounds.

The celebration will officially open with a reception in the main building Wednesday evening. Betty Dace Cole is chairman of the reception.

A special tour of the school will be conducted by the students Thursday morning, beginning at 8:30 o'clock, at which time the public will have an opportunity to visit many of the buildings on the school grounds, including the dormitories, the class rooms, the gymnasium, the dining hall and the State circulating library.

At 10 a. m. an alumni program will be presented. A large number of alumni as well as former students are expected to attend.

**Hochler To Speak**  
The centennial program will be held at 2:30 p. m., with Fred K. Hochler, director of the Illinois Department of Public Welfare, as the principal speaker.

The pageant will be presented at 8 p. m. Mel Grubel Meyers is chairman of the pageant. The narrative and pantomime script has been prepared by Miriam Russell and the Braille transcription was done by Beatrice Marie Wiltner. The music will be under the direction of F. G. Meyers, music director for I. S. B. Research into the history of the school was conducted by Louis W. Rodenberg and George W. Gerlach.

Ronald L. MacLean will act as the descriptive commentator and pantomime director. The guest reader will be Willard Lee, A. B., L. B., technical adviser, Illinois Department of Revenue, and a graduate of I. S. B.

Reid, costumes; Margaret L. Longman, make-up; Jack R. Hartong, usher and seating; Betty Dace Cole, courtesies; and Betty Newman Bruce, supervision of cast.

The public is cordially invited to attend the centennial activities.

**A Jacksonville Project**  
Jacksonville can justly be proud of the Illinois School for the Blind, as it was brought about largely through the efforts of a number of prominent Jacksonville and Morgan county residents of a century ago.

It was while he was enroute to visit his family in northern Illinois,

that Samuel Bacon, a blind graduate of the Ohio Institution for the Blind, stopped in Jacksonville at the old Morgan House and there talked with many of Jacksonville's leading citizens and persuaded them that the state (which had just established a school for the deaf) was remiss in its care of the blind.

On April 1, 1848, a group of these citizens met in the offices of Brown and Yates, lawyers, and decided to establish a private school for the blind, with Mr. Bacon as its principal.

Funds for this project were raised through local subscribers. The original list has been lost, but among them were Judge William Thomas, Colonel George M. Chambers, Judge William Brown, Richard Yates, David A. Smith, Colonel James Dunlap, Thomas Officer, Samuel Dunlap, Julian M. Sturtevant, Dr. David Prince, George Dunlap, Matthew Stacy, Jacob Wilkinson, Rev. Andrew Todd, Dennis Rockwell, G. W. King, Jonathan Neely, Edwin Wolcott, Dr. Samuel Adams, Judge Samuel D. Lockwood, J. M. Davenport, James Jackson, J. J. Cassell, David Robb, Samuel Markoe, M. H. Cassell, Fleming Stevenson, Robert Hockenhill, Cornelius Hook, Dr. N. English, J. O. King, James Berdan, John W. Goltra, John W. Lathrop, A. Coffin and others.

The total amount needed as estimated by Mr. Bacon was \$400. The subscribed fund, which greatly exceeded that figure, was never collected.

**School Opened In June**  
The private school opened on June 5, 1848, in the McConnell residence on North Main street, in the vicinity where the Washburn tracks are now located.

Mrs. Sarah K. Graves acted as matron and her daughter, Sarah (who later became Mrs. Bacon), acted as reader. There were only four pupils, a boy from Adams county, another from Marion county and a brother and sister from Pike county.

On January 13, 1849, Senate bill 19, "An Act to Establish the Illinois Institution for the Education of the Blind," was signed by Governor Augustus G. French. The bill had been guided through the state legislature by Senator Newton Cloud and Representative Richard Yates. Its author was Judge William Thomas.

Eleven in State  
The state school, the 11th of its kind in the country, opened in Colonel Dunlap's Mansion House on Monday evening, west of City Place, on the first Monday in April, 1849.

The school replaced the private school and the same staff was retained. As more pupils arrived, Mr. Bacon added a young blind lady, from the Ohio school as a teacher, of female handicrafts and a young man from the same institution as a teacher of music.

In 1854, the school moved into its new building, just east of the Alton railroad on East State street.

Mr. Bacon and his staff resigned in 1850 and the trustees were fortunate in securing Dr. and Mrs. Joshua Rhoads of Pennsylvania to replace Mr. Bacon and Mrs. Graves. The Rhoads family became an important part of Jacksonville's cultural life in music, literature and religion. In 1874, Dr. Rhoads was succeeded by Rev. F. W. Phillips, M. D., who served until his untimely death in 1888. W. S. Phillips, son of Rev. Phillips, acted as his father's successor until 1890, when Frank H. Hall was appointed in his stead.

The Phillips family, like the Rhoads family, took an active part in Jacksonville's cultural life. Both families have descendants in the community now.

**Under Trustees Till 1908**  
The school continued under the supervision of a board of trustees until July, 1908, when a board of administration with offices in Springfield took its place. In 1918, the board of administration became the Department of Public Welfare. While the board of trustees existed, many prominent men from this community served. Among them were A. C. Wadsworth, Julian P. Lippincott, Charles A. Barnes, W. L. Fay, George E. Doyne, Charles S. Black, James T. King, W. H. Morrissey, George W. Moore, Henry Phillips and many others.

In addition to the superintendents previously named, Dr. William F. Short, Captain Joseph H. Freeman, George W. Jones and Robert W. Woolston also held that position. Leo J. Flood is the present administrator.

Others who testified were Fred Ballard of Jerseyville, who told of finding the body, and Sheriff Arthur Powell, who testified about the confessions made by the youths and also presented the gun which was used in the slaying.

The defense attorney, William G. Vogt of Carrollton, did not present any evidence.

The two youths maintained their usual calmness during the entire proceedings and after sentence was passed.

When asked by Judge Smith if they had anything to say they gave negative answers.

Miss Wheeler, who is physical education teacher in the Proviso Township High school of Maywood, is a regular observer at the Illinois state legislature. She urged support for the Federal Aid bill for schools, stating that Illinois schools could expect an increase of approximately five dollars per student under its provisions.

The Illinois Federation of Teachers is also urging support of Illinois House bills 128, 505 and 506. Bill 128 sets the amount upon which teachers pensions will be calculated. Bills 505 and 506 are concerned with teacher tenure laws.
